Appln. No. 10/820,913

Attorney Docket No. 10541-2028

Brief Description of Arguments to be Presented:

1. While *In re Schreiber*, 44 USPQ2d 1429, 1431-32 (Fed. Cir. 1997) may require apparatus claims be distinguished over prior art in terms of structure rather than function, *In re Venner*, 120 USPQ 193 (CCPA 1958); (see also MPEP 2144.04), provides that the function or purpose of a structure is relevant when determining whether a claimed automatic structure is anticipated by, or distinguishes over, a prior art manual structure.
